1. was my teacher

1.1)

1.2) The teacher communicated ideas and concepts effectively.

1.3) The feedback I received from this teacher has helped my learning and performance (select N/A if another teacher was responsible for providing you with feedback for this course)

1.4) Please comment on aspects of this teacher's teaching you think were particularly good.

- Explains concepts very clearly. There is never any confusion with what we are doing.
- Good dynamics of the seminar
- He explains quite well.
- he explains well and clearly-takes his time to go through the concepts covered in lectures and explain the problems.
- He is thoroughly teaching the material and naturally express certain amount of insightful things
- helpful in breaking down concepts
- I find the way he goes through the problems very thorough and easy to understand. His notes provided on noodle are particularly useful
- Makes very good explanations.
- The problems are explained very well and the solutions are detailed which is amazing
- Very clear in his explanations and accurate in his answers when a student asks a question
- very efficient
- Was patient resolving all queries. Ensured that we went over the problem sets in detail to not leave space for confusion.

1.5) Please comment on aspects of this teacher's teaching you think could be improved.

- A lack of interaction with the audience but this is probably due to a lack of experience in teaching. I know that I can't expect the same from a teacher with 30 years of experience and a PhD student.
- Could slow down a bit when talking
- It may be my fault, but as an international student, I find it a little bit hard to understand the accent.
- Maybe seminars not a lot correlated with lectures, or they regard things that haven't been covered yet in lectures.
- more problems or examples similar to exams should be given - maybe as additional homework with their solutions. This will help to better understand the concepts as explaining the models can be quite abstract.
- N/A
- NA
- na
- Nothing
- nothing except great great
- Speak too fast
- Spend less time writing 6 digits number on the board and give directly the answer
- The handwriting on the board is sometimes illegible (not a big problem). Maybe he could write a big bigger?

1.6) Overall, I am satisfied with the teaching by this teacher on the course.
